

Creditor access to CM/ECF

Effective October 18, 2005 the U.S. Bankruptcy Court for the District of New Hampshire is now allowing limited/creditor access to our CM/ECF system.

Currently the access will be limited to filing Proofs of Claim, Requests for Notice and Withdrawal of Claims. Access to file Reaffirmation Agreements and Transfer/Assignment of Claims will be added at a later date.

If you have been trained and/or are actively filing claims in another court you are required to indicate a minimum of three districts on the login/password form. You will not be required to complete training exercises to receive access. If you have not been trained or are not actively filing claims in another court you will be required to complete a number of training exercises before receiving access to our CM/ECF system.

We will allow up to 10 login/password requests per creditor. Requests for more than 10 login/passwords must be accompanied by a memo detailing why more than 10 are necessary.
